

Tiered Link Building Case Study
**HOW WE INCREASED
ORGANIC TRAFFIC BY
63.58% FOR A LAW FIRM**

One of the best ways to **INCREASE RANKINGS AND AUTHORITY** of websites is link building.

Establishing authority through backlinks significantly impacts the overall SEO and performance.

Backlinks give websites the **BOOST** they need to rank higher and increase organic website traffic when correctly paired with other SEO elements.

It is never this simple, however.

SEO IS NOT ABOUT INDIVIDUAL TASKS,

but rather a complex combination of actions.

It's about *doing it all*: technical optimization, competitor analysis, keyword research, content, and backlinks. Finding the right combination of SEO actions is what gets the website ranking. And missing one of those elements could be holding back the rankings. This case study demonstrates just that...

If you're looking to increase website visits and online presence, continue reading about how a law firm used our **Link Building** campaign with 10 hours of **Custom Signals** and achieved strong results, greatly increasing organic traffic and new users. This case study shows how you can leverage our services to gain more business for your company.

RESULTS FROM OUR LINK BUILDING CAMPAIGN

- ✓ Ranked **28** keywords from positions 6-18 to top 5 (some even in top 3 positions)
- ✓ **63.58%** increase in organic traffic in the first 3 months
- ✓ **15.77%** increase in monthly new organic users
- ✓ **77.45%** increase in quarterly new organic users
- ✓ **1820** more clicks than the previous 3 months
- ✓ Additional 2,305 incoming users/leads (**62.76%** increase)

INITIAL DATA

The website already had established rankings; however their 3 target pages had keywords hovering around position 6-18. These are not bad positions, but pushing these keywords to top 3 – top 5 would potentially bring the business **MANY MORE LEADS.**

Most clicks occur in the top 5 positions.

If your business isn't ranking in these spots, **YOU'RE MISSING OUT** on a huge portion of potential traffic, clicks, and revenue.

KEY FINDINGS FROM ANALYZING 4 MILLION+ SITES:

✓ The #1 result in Google's organic search results has
AN AVERAGE CTR OF 31.7%

✓ The #1 SERP result is
10X MORE LIKELY
to receive a click compared a page in #10 spot

✓ **ORGANIC CTR FOR POSITIONS 7-10**

IS VIRTUALLY THE SAME
Therefore moving up a few spots on the bottom of the first page may not result in more organic traffic

MANAGED LINK BUILDING CAMPAIGN

Our team manages the **ENTIRE** link building process for you, while you sit back and watch the impact of your campaign's results. Our strategies are *custom made* for each client and their niche. Our process includes:

- ✓ Technical SEO Audit
- ✓ Anchor Text Ratio Audit
- ✓ Future Link Mapping Strategy
- ✓ Competitor Analysis
- ✓ Matching Brand with Backlinks
- ✓ Creating Content
- ✓ Anchor Text Optimization
- ✓ Manual Outreach and Link Placement

When you work with our link building team you get;

- ✓ Diverse Set of Niche Relevant Link Types
- ✓ Outreach Guest Posts
- ✓ Curated Niche Link Placements
- ✓ Do-Follow Media Mentions and Brand Links
- ✓ Tier 2 Links and Link Indexation
- ✓ Anchor Text Ratio Audit
- ✓ Future Link Mapping
- ✓ Data Studio Setup
- ✓ Link Indexation

For the client, this meant that they would get high traffic guests posts and niche link placements for maximum results in the fastest time possible.

ADDITIONAL 10 HOURS IN CUSTOM SIGNALS

If you're looking to increase nationwide brand presence or rank in more competitive industries/locations, additional hours in custom signal creation can give you the added boost you need to succeed. We take your off-page brand promotion even further with;

- ✓ National SEO Niche and Authority Signals and Outreach
- ✓ Competitor Backlink Opportunities
- ✓ Competitor Brand Mentions
- ✓ Even More Niche Link Opportunities

THE AUDIT OF THE SITE : CHALLENGES TO OVERCOME

The website audit didn't find any major flaws in the site itself. Page titles were slightly over-optimized, but other than that, on-page optimization was in place. The target pages looked good and had a decent amount of quality content. All technical and on-page aspects were good to go.

The biggest challenge with the campaign was the client's pages and suggested keywords for each page were not in line with search intent. The client wanted to use the same page to target a variety of keywords with different search intents, but this is how keyword cannibalization happens.

Keyword cannibalization is a very common issue. In fact, correcting matching keywords and pages based on search intent is one of the **MOST IMPORTANT STEPS**.

Getting it wrong will significantly “limit” the campaign’s potential. This is *exactly why* we don’t proceed with a campaign until we are sure what target pages/keywords we are going after.

So we went back to the client and explained our audit findings, then agreed on 5 pages to target, each with different keyword clusters. **Correctly mapping keywords to the corresponding page/search intent is crucial to maximize ranking impact.**

Now, it was all about planning and executing a link building strategy.

OUR LINKING BUILDING STRATEGY

To maximize the impact, you must combine the link with the correct, optimized anchors. However, using too many of one anchor type or over-optimized anchors can negatively affect rankings. It's important your SEO agency understands how to best leverage anchor text.

If you are unsure of what anchors to use...

Our team is extensively trained in **creating the best anchor text** for link building.

RESULTS OF LINK BUILDING

After 3 months of our link building campaign, we were able to **PUSH 13 KEYWORDS** from position 6-18 to the top 5. Many of the keywords ranked in the top 3!

You can see the best position, latest position (at the 3 month mark), and how the position changed in the chart to the right.

Many of these terms are highly competitive with substantial search volume. This enabled our client to **INCREASE TRAFFIC, CLICKS, AND LEADS!**

52	divorce lawyer	0 ★	10	9	11 🟢	70 / 70

There were over 28 keywords in top 5, with 18 of those keywords being top 3, in month 5 of the campaign.

CONSISTENCY IS KEY!

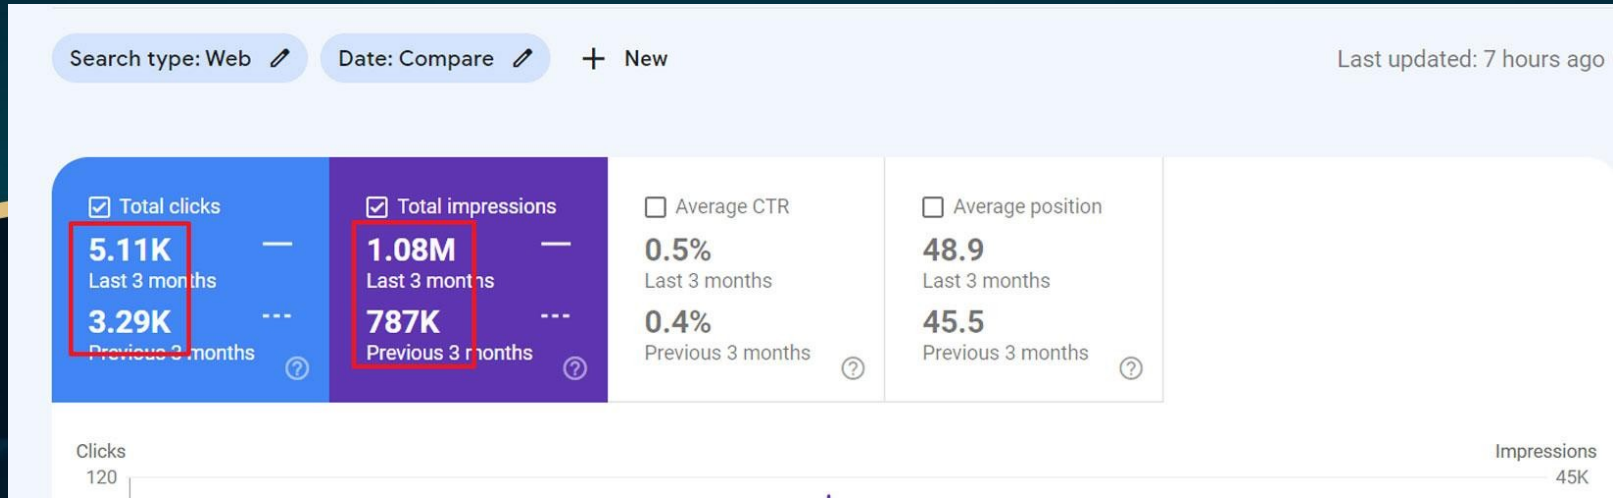

Consistently building diverse and quality links in a natural manner ensures there will be a return on investment and creates an authoritative backlink profile for your clients, which then boosts rankings as seen below.

5 ★	5	7 🍀	40 / 90
5 ★	5	13 🍀	20 / 20

These ranking improvements lead to increases in the clicks and impressions of the website...

- ✔ **293,000 More Impressions** than the previous 3 months
- ✔ **1820 More Clicks** than the previous 3 months
- ✔ Improved average **Click Through Rate** (content better matched user's search intent)

Our link building also expanded the number of keywords the pages ranked for. This is why the average position decreased, even though the positions of all target keywords significantly increased.

Thanks to the increased visibility and exposure, the law firm's website saw a **63.58% increase in organic traffic** over the course of the first 3 months. There was also a **62.76% increase in users** to the site, bringing in an **additional 2,305 incoming leads**. Sessions also increased from 4,313 to 7,054 in 3 months.

In the Google Analytics chart below you can see the growth in users over the **first 3 months**. This is sustained growth that continues to increase as the campaign progresses.
